

Your Partner for Automotive Innovation

Excellence is our Passion

Henkel is in the unique and exciting position to **enable** OEM's and their tiered suppliers to work together to achieve lighter, safer, quieter and greener vehicles that are launched flawlessly. By building teams which are focused on new designs, early in the process, we will help you accomplish the following:

- Reduced risk to launch timing, cost, and quality
- Increased utilization of supplier innovation
- Improved vehicle and supplier component design project coordination
- Strengthened global communication network
- Reduced supplier base
- Cost reduction/savings
- Makes lightweight designs possible
- Support of supplier diversity
- Improved OEM/supplier relations
